

FIRST INTERNATIONAL CONFERENCE ON PAVEMENT PRESERVATION

NEWPORT BEACH, CALIFORNIA APRIL 13-15, 2010

Plan now to attend the First International Conference on Pavement Preservation (ICPP). The ICPP will bring together researchers and experts working in the field of pavement preservation to exchange ideas, share best practices, and discuss critical issues and concerns impacting the implementation and success of pavement preservation theory and practice. Over 40 peer-reviewed papers will be presented by international experts at this not-to-be-missed event.

SPONSOR AND EXHIBITOR OPPORTUNITIES:

For more information on sponsorship or exhibiting opportunities, please contact conferences@techtransfer.berkeley.edu or (510) 665-3628

PRIMARY CONFERENCE SPONSORS:

California Department of Transportation (CALTRANS)
Federal Highway Administration (FHWA)
Foundation for Pavement Preservation (FP2)

OFFICIAL LANGUAGE:

The official language of the conference will be English.

REGISTER TODAY

Conference pre-registration is required

FIRST INTERNATIONAL CONFERENCE ON PAVEMENT PRESERVATION

ABOUT NEWPORT BEACH, CALIFORNIA

Situated between Los Angeles and San Diego on the dramatic California coastline, Newport Beach boasts some of California's most beautiful beaches, and is located within an easy drive of many attractions, including Disneyland.

TOPICS WILL INCLUDE:

GENERAL SESSIONS

**Pavement Preservation Solutions for Sustainability
Promoting Benefits and Implementation
Case Studies and International Preservation Programs**

PAPER PRESENTATIONS

■ Decisions, Decisions, Decisions

Funding solutions, performance-based decisions, variable condition decision making, surface treatment selection, pay-now or pay-later treatment selection, performance-specified maintenance contracting.

■ Pavement Management for Pavement Preservation

Remaining life analyses, web-based management systems, agency programs for pavement management for pavement preservation, whole life analyses, life cycle cost assessments (economical and environmental), estimating treatment life.

■ Flexible Pavement Preservation Toolbox

Bonded surfaces, slurry seals, chip seals over fabrics, rejuvenator basics, crack sealing and thin overlays.

■ Rigid Pavement Preservation Toolbox

Ride and noise reduction benefits of rigid pavement preservation techniques, sustainable preservation techniques for cold weather pervious concrete, comparative processes for assessing rigid pavement preservation treatments.

■ Selecting Materials for Extending Pavement Life

Field performance of new materials, environmentally-based selection of emulsions, influence of crack sealants, thin surface treatments and overlays on pavement life.

CONFERENCE ACTIVITIES

Exhibit Hall

Banquet and Reception

Optional: Spouse program excursions
Post-Conference trip to Disneyland
Post-Conference local agency projects tour
