

Annual Meeting

The three day annual technical meeting of AAPT is held in the spring every year and includes asphalt related technical sessions, symposia, and workshops.

Each technical session includes presentations by experts in the field followed by open discussions. The Board of Directors develops these session by selecting the best of numerous paper submissions, which will be published in the annual journal.

Annual Journal

Since 1928, the AAPT has published an annual proceedings journal containing papers and reports presented at the Annual Meeting.

The Journals are unique in that they contain, in addition to formal presentations, the oral and written discussions of papers presented at the technical sessions and symposia.

History

On January 17, 1924, a small group of engineers met in Chicago, Illinois, to establish an association for consideration of the technology of asphalt paving. Since then, the Association of Asphalt Paving Technologists (AAPT) has grown from its original 19 charter members to the present roster of over 800 members from every continent in the world.

*Leaders in advancing
asphalt paving technology
for more than 80 years...*

*...dedicated to professional
development and sharing of
best practices and latest
developments in the asphalt
paving industry through
journals, scholarships,
workshops and networking.*

AAPT Mission and Membership Benefits

Mission

AAPT serves as a central point for communicating with fellow professionals and staying up-to-date on the latest developments in the asphalt paving industry.

AAPT is dedicated to:

- ◆ Supporting developments in asphalt paving technology
- ◆ Encouraging communication among those charged with technical responsibility for the production and laying of asphalt pavements, the production of materials, and construction or construction equipment
- ◆ Serving as a central point for exchange of ideas related to the technology of asphalt paving
- ◆ Conducting, encouraging and collating research in the asphalt paving industry

Benefits

- ✓ Access a wealth of information and emerging technologies
- ✓ Be an integral part of a technical community comprised of individuals from all sectors of the asphalt industry including material suppliers, researchers, agency owners, consultants and equipment manufacturers
- ✓ Receive the annual journal of refereed technical papers and conference proceedings
- ✓ Have the opportunity to be recognized by an award presented annually for best paper
- ✓ Enjoy the camaraderie of colleagues in the field during annual meetings at attractive venues
- ✓ Participate in lively debates on important technical issues related to asphalt paving
- ✓ Belong to a North American based organization with significant international membership and focus
- ✓ Be a member of an association that operates without organizational biases; policies are set by and for individual members by an elected Board rather than by companies or organizations

Association of Asphalt Paving Technologists

Benefits (continued)

- ✓ Have the opportunity to support the next generation of asphalt technologists through a robust student scholarship program

- ✓ Be part of a dynamic growing association that periodically reviews and improves goals and objectives through a Strategic Development Plan to better serve its members

If you share AAPT's dedication to the advancement of asphalt paving technology and have technical responsibilities requiring access to the latest industry research, please apply for membership today!

You may apply and pay the nominal annual membership fee online at:
